Home Education Office

Dear Parent/Guardian,

We hope you have had a successful year of Home Schooling your child(ren). In order to conclude the 2020- 2021 school year and initiate the 2021-2022 school year we need:

- Home Education Notification form for 2021-2022 school year if you plan to keep your child(ren) in Home Schooling. Please include a brief outline of the intended curriculum with a list of textbooks, correspondence course(s), commercial curricula, or other basic teaching materials that you intend to use during the 2021-2022 school year. **If you will not be home educating your child(ren) next year, we would need to know where your child(ren) will be attending school.**
- The Ohio Department of Education waived the required end-of-the-year academic assessment information due to COVID-19, so no assessment is due for the 2020-2021 school year only. If there are any changes to the Home Education requirements, we will send out notices of those changes. Please note, as of the date of this letter students in 1st through 11th grades will be required to turn in an assessment at the end of the 2021-2022 school year (**an assessment form is not required for kindergarten**).

For your convenience, we have added the *Academic Assessment Form & 2021-2022 Home Education Notification Form* to our website at <https://www.TPS.org>, under the Students & Parents tab, listed as “Homeschool Information.”

Sincerely,
Home School and Student Data Office
